

ML PROJECT WEEKLY UPDATE

Week 4: March 17, 2025 – March 22, 2025

Work Done:

- Developed and implemented a **clustering algorithm** (DBSCAN).
- Successfully **plotted the trajectory** directly on the image using the provided files.
- Created Mid-term PPT and Project Report.

Planned Activities for Next Week:

- Evaluate the **clustering pattern** to determine its correctness.
- Research how **classification techniques** can help in identifying **abnormal driving behaviour**.
